

SUZANNE RIPPE

PRESS BOOK

DESCRIPTION

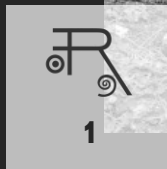

Suzanne Rippe is a French mosaicist artist working in her workshop in **Olivet** in the center of France.

Her work symbolises **the alliance of mineral and vegetable** : she inlays tiles into gross wood pieces, following the natural lines.

At the beginning, Suzanne worked in the show business as a costume designer. She has worked with Joseph Nadj and done the merchandising of the rock band « Burning heads ».

Nowadays, she creates her pieces with a local raw material : old beams, planks. She works with oak, elm, acacia, ash wood, marbles, molten glass, pebbles, gold, silver...

However, she teaches mosaic courses at the workshop "Andamento" and works sometimes with children. She gave lessons in Japan in 2009.
